REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. The examiner reviewed the applicants' arguments in the response dated 11/20/03 and has withdrawn the prior art rejections in response to the applicants' arguments.
3. Regarding Mitsusi 06-160135, the applicants have pointed out that they get better results for poly-4- methyl-1-pentene resins having 6-8% comonomer. The example in the prior art is outside of the range claimed. The applicants' comparative example 1 contains a low amount of comonomer and does not have as good a thermal properties as the materials within the claimed range and this supports their assertion of unexpected results.
4. The examiner has also withdrawn the rejections based on Hashimoto (JP 05-104694) because they have stated that DX820 has a decene content of less than 3% (page 12) and thus does not meet the claims.
5. Applicants amended claim 3 so that it recites a proper method claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

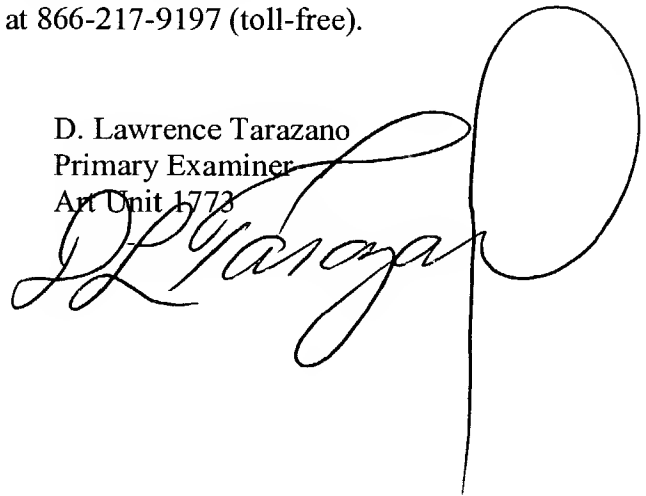

Any inquiry concerning this communication or earlier communications from the examiner should be directed to D. Lawrence Tarazano whose telephone number is (571)-272-1515. The examiner can normally be reached on 8:30 to 6:00 (off every other Friday).
